

STRETCH
THE LADDER TRUCK SAYS

BEA SUPER-SAFE KID!

Learning and Activity Book

Pre-K – 2nd Grade

I'm Stretch the ladder truck.
Some things are

HOT...

...And some things are **not**.

Being a super-safe kid means being careful around hot things and fire, because they can hurt you.

There's only one you! That's why it's important for you to be

SUPER-SAFE!

You should never
touch hot things,
because they can cause...

BURNS

3

**And
burns hurt a lot!**

Before you eat something hot, have a grown-up test it to make sure it won't burn you.

Hot water can cause burns.
Before you get in the bath
or put your hand under hot
running water, have a
grown-up test it first.

If you touch something hot by accident, cool a burn with cool water.

Matches and lighters
are tools for grown-ups.
You should never play
with matches or lighters.
They are not toys. They
can burn you. They can
also start a dangerous fire.

DANGER!

If you see matches
or lighters someplace
where kids can find
them, tell a grown-up
to put them away
before someone
gets hurt!

The kitchen is no place
to play.

There are lots of things
in the kitchen that can
hurt kids.

If you need something
in the kitchen, ask a
grown-up to help you.

Fire is very hot. Don't stand too close to fires. Heat and sparks can burn.

STAY BACK

If your clothes
catch on fire, STOP,
DROP to the ground,
and ROLL to put the
flames out fast.
Cover your face
with your hands
to protect it.

STOP

DROP

ROLL

Now you know how to be super-safe around hot things and fire. Here are some other ways that you can stay safe!

Never play with electrical wires or outlets.

They're dangerous!

DANGER

When you skateboard or ride your bike, make sure you wear a helmet. Helmets keep you safe from getting badly hurt.

HELMET

Never run when you're
at the swimming pool
or close to water.

Make sure you wear
a life jacket and stay
with a grown-up.
